Freedom of Information Request

23rd October 2024

Question

1. Can you please advise how many public access defibrillators have been provided by SAS and to what locations. 2. Can you please provide a list of outgoings from the SAS General Endowment fund, where these monies have gone and for what purpose?

Answer

The Scottish Ambulance Service does not own and has not purchased any public access defibrillators. Locations of all PADS can be found in our Frequently asked Questions area on our website: [Frequently Asked Questions](#).

Please see attached Endowment Funds reports for year ends 2020, 2021 & 2022. The year-end report for 2023 is published on OSCR [OSCR | Charity Details](#).

The 23/24 accounts have been exempt from release under section 40 of FOISA as it is still going through the process of being audited. This exemption applies if the disclosure of the information would prejudice substantially the exercise of a Scottish public authority's functions in relation to the auditing of the accounts. They will be made available to the public using the link above once the auditing process has been complete.
