## Question

I would like to request the number of paramedic students from universities that are placed with the services throughout the year.

If possible could you include the number of students from 1st, 2nd and 3rd years and also breakdown per university. If there are currently no students on placements can you please include projected numbers for the next year.

## Answer

Please see the table below detailing the number of paramedic students from universities that are placed with the services throughout 2023/2024. I have included a column for estimated figures from each university for 2024/2025 where we have them, however, these have yet to be confirmed.
