Question

I would like to know how which private ambulances the Scottish Ambulance Service currently has contracts with. To clarify, I am seeking details of any private ambulance providers, whether these contracts are for non-emergency or emergency services, and the duration of such contracts, if available. If this information is held in a form that can be made public, I would appreciate it if you could provide a list of all such companies and any relevant details, such as the scope of services provided under these contracts.

Answer

The Scottish Ambulance Service do not have contracts or utilise Private Ambulance Services.
