Question

Can you provide details of the following: 1) A packing list for a primary response bag? 2) A packing list for a paediatric response bag? 3) A packing list for an A&E ambulance? 4) A packing list for an urgent tier ambulance? (if different from A&E) 5) A packing list for an scheduled care vehicle? 6) A packing list for a PRU car/van?

Answer

Please see attached the current VECS (Vehicle and Equipment Check Sheet) for an A&E Vehicle, and a Patient Transport (scheduled care) vehicle; Urgent Tier vehicles have the same packing list for A&E vehicle. Each sheet contains a packing list for both, a response bag and a paediatric response bag.
